MEMORANDUM FOR: Executive Officer to the DDA

FROM: Daniel C. King  
Director of Logistics

SUBJECT: Legislative Programs for the Second Session of  
the Ninety-Eighth Congress

REFERENCE: Routing and Record Sheet fm EO/DDA, dtd  
31 August 1983, Same Subject (DDA 83-4034/1,  
OL 83-2019)

The Office of Logistics has two legislative proposals for the Second Session of the Ninety-Eighth Congress, as follows:

1. For most of the Agency's history, the perception was held, and the indications were that it was legally proper, that funds appropriated for CIA were "no-year funds," that is, they did not have to be obligated during the fiscal year in which they were appropriated. In recent years, however, the Congress has specified that our appropriated funds must be obligated during the year for which appropriated. Since Congress has so specified, it will take legislative action to allow the Agency to treat funds as no-year. This would provide much greater flexibility in procurement planning and would avoid much of the end-of-year procurement crunch of recent years. Since this proposal would greatly affect both the Comptroller and the Office of Finance, they should be consulted before proceeding with a legislative proposal.

2. A legislative proposal should be presented to seek authorization for the Agency to take over the complete maintenance and operation of the Headquarters Compound from the General Services Administration. This action should commence at the close of FY-84, and the SLUC payment terminated at that time. The buildings in the Headquarters Compound were paid for with Armed Forces funds and GSA has never had intrinsic ownership of them as is the case for most Government-owned or -leased buildings. Because of the

special equipment and the many intricacies in our way of  
conducting business in a secure environment, we feel it is  
in the best interest of the U.S. Government that we be  
totally independent of GSA in maintaining the Headquarters  
Compound.

Harry -

Attached are the suggestions  
from OF, OP + OL re legislation  
for 2nd session, 98TH Congress.

I felt we should at least ask  
OLH to look into these proposals,  
even though our chances may be  
doubtful.
